

COVID-19 Response Plan As of April 1, 2021

Oak Hill Psychological Services, PLLC, has been fortunate to remain fully operational throughout the past year. We are thrilled to look towards the future and feel hopeful that we are moving into brighter times.

All of our providers have received COVID vaccinations and we are happy to welcome clients back into the office as of April 5, 2021. We will continue to offer telehealth services for now, but we expect to return entirely to in-person services by later this year.

If you have used insurance for your teletherapy visits, please be sure to check directly with your insurance provider to determine if “telehealth” or “teletherapy” will continue to be covered. We will continue to file your insurance claims but we may not know the details of your specific plan, such as if copayments are covered or your deductible applies, until we receive notice from your insurance company. Please be sure to inform our front office staff of any updates or changes to your coverage as soon as possible.

We continue to recommend following only reputable news sources, such as the U.S. Center for Disease Control and the Virginia Department of Health, to receive updates and direction for protecting yourself and your families:

<https://www.cdc.gov/coronavirus/2019-n-cov/>

<https://www.vdh.virginia.gov/coronavirus/>

As always, our top priority remains the health, safety, and well-being of our clients, staff, providers, and our community.

Please let us know if you have any questions or concerns.
